

IS YOUR BUILDING UP TO CODE? HERE'S WHAT YOU NEED TO KNOW

By January 1, 2024*

An existing high-rise building that is not in compliance with the requirements for minimum radio strength for fire department communications must apply for an appropriate permit for the required installation with the local government agency having jurisdiction (AHJ).

By January 1, 2025*

An existing high-rise building that is not in compliance with the requirements for minimum radio strength for fire department communications must demonstrate that the building will become compliant. Those not in compliance by this date may be at risk of losing their CO (Certificate of Occupancy).

*FS 633.202

Let Signal Communications guide you through the required steps:

- ✓ We will coordinate a Delivered Audio Quality (DAQ) Test with your local FD
- ✓ Engage our experienced team to complete an on-site RF signal survey
- ✓ Our State-Licensed Professional Engineers will design your code-compliant system
- ✓ Professional Installation completed by our State-Licensed Electrical Contractors
- ✓ Worry-free service with our code-required annual support agreement
